

Master of Commerce in Risk Management of Financial Markets [CM036BUS24]

Convener: Dr C-P Georg

Entrance requirements:

There are limited places on the degree and admission is based on merit. Applicants must have an Honours (or four-year equivalent) degree.

The minimum admission requirements are:

- An Engineering degree from any sub-discipline

OR

- An NQF level 8 qualification (Honours or four-year equivalent degree) with
 - At least 18 credits of Mathematics at NQF level 5 (MAM1010F at UCT)
 - At least 18 credits of Microeconomics at NQF level 5 (ECO1010F at UCT)
 - At least 18 credits of Macroeconomics at NQF level 5 (ECO1011S at UCT)
 - At least 18 credits of Statistics at NQF level 5 (STA1000S at UCT)

Admission is at the discretion of the admissions committee and meeting the minimum requirements does not guarantee admission.

Qualification outline:

The African Institute of Financial Markets and Risk Management in association with the School of Management Studies offers a full-time professional MCom in Risk Management of Financial Markets by coursework. The primary objective of this professional Master's degree is to equip students with the necessary methodological, regulatory and research skills for financial market risk management. The requisite technical skills cover fundamental mathematics, statistics, econometrics, and computing. The courses aim to instil the application of technical skills to modelling complex financial and economic concepts and thereby enhance the understanding thereof.

The qualification is intensive and challenging, and combines training in mathematical, statistical, econometric, and computing skills with a solid understanding of financial markets and risk management. It consists of 180 credits of coursework including a research component, all of which can be completed within one year. Upon successful completion, candidates should be well equipped for careers in the most sophisticated areas of risk management in the financial services sector; and to pursue doctoral research within the broad field of financial risk management. The programme has been designed to accommodate students from a wide variety of backgrounds.

Duration:

The degree is offered over one year, full-time and begins in February. The submission date for the last research component is in January of the following year.

Prescribed curriculum/programme structure:

Course code	Course name	HEQF Credits	HEQF Course Level
DOC5011W	Risk Management Quantitative Modelling	45	8
DOC5013W	Risk Management Markets	45	9
DOC5010S	Risk Management Governance	30	9
DOC5012W	Risk Management Research	60	9
Total:		<u>180</u>	

Assessment:

To qualify for the degree, the student must pass all the compulsory courses.

Readmission rules:

A candidate who fails any of the courses required for successful completion of the degree, during their first year of registration, will be allowed to repeat a maximum of two courses in the following academic year. Courses may only be repeated once.

Distinction rules:

The degree will be awarded with distinction if the candidate obtains a weighted average mark of 75% or higher for the coursework.

Further specific administrative requirements:

In addition to completing the University application form, the applicant must submit academic transcripts, a Curriculum Vitae and a letter of motivation. Application for the following year must be made by 31 October.
